**RUTLAND TOWN SCHOOL DISTRICT
REPORT OF THE SCHOOL DIRECTORS
AND SUPERINTENDENT**

It is necessary to condense our report of all school activities in order to have space for reporting in some detail on other important matters.

As usual after the close of school in June, 1966 your Directors and Superintendent inspected the condition of all buildings in order to determine the alterations and repairs to be made in order to put all buildings in satisfactory condition for another school year. Even though we anticipate vacating the present buildings in 1967, it is necessary that we maintain all buildings in good condition as long as they are our property.

All buildings were cleaned thoroughly, including walls and windows. Floors in all buildings were cleaned and sealed. The floor in the Town Hall was sanded and sealed, the first thorough cleaning in years. Necessary repairs were made where needed including some painting.

In order to keep the size of classes within reasonable limit, it was necessary to employ an additional teacher. Some work was done on the basement room at Dyer School in order that it might be used as a classroom. All third graders were assigned to this room and Mrs. Muriel Berg was employed to teach the class.

There were many items of interest and benefit taking place during the school year in each of the schools. Oral Sabine Polio Vaccines including all three types and boosters were offered to all pupils in the Town. Two hundred and twenty-seven students were treated. Vision and hearing examinations were given. Physical examinations were offered to all first graders and other children who had not previously had them. Dr. Emily Perkins very kindly agreed to act as attending physician.

The serving of hot lunches at the different schools was carried out successfully. Some financial assistance was given to the parent groups with the understanding that any surplus remaining would be returned.

The New Rutland Town Elementary School

A chronological report of the principal items involved follows.

In 1963 at March Town Meeting the voters authorized the purchase of 15½ acres of land on Post Road on which a new school could be built.

In 1964 at Town Meeting the voters authorized the School Board to employ an architect for designing, preparing plans and specifications and estimates for a new school. The Board of Directors selected others to become members of the School Building Committee. They were Mrs. Francis Houghton, Mr. Richard Ackerman, Mr. Robert Solari, Mr. Harold Pulling and Mr. Geoffrey Graham, our Superintendent.

In September, 1965 the voters authorized the Board to have the Architect prepare final plans and specifications and obtain bids from general contractors for building the structure and for providing of all driveways and parking spaces and the final landscaping.

At the same meeting the voters authorized the sale of bonds in the amount of \$479,000.00 to defray their share of expense in the cost of the new building. It is expected that the State will provide the balance of funds to cover the cost.

Contracts for clearing land and rough grading were awarded in December, 1965.

The bids of general contractors were publicly opened at 8:00 P.M., February 25, 1966 at the Center Rutland School. John A. Russell Corporation of Rutland submitted the low bid and as the anticipated returns from Bond Issue and State Aid appeared ample to cover the cost of the structure the Board voted to give the Russell Co. a letter of award of contract.

On March 25, 1966 a general contract was signed with the Russell Corp.

We hope that all citizens and their children in Rutland Town have recently passed by the new building, if so, they noticed that the exterior of the building is practically completed. In fact the building, at this writing, is 65% completed.

There remains a great deal to be done in the completing of the building and the equipping same for the opening of school in September, 1967. We expect to meet that date.

Each year the School Board is required by law to take a census of pre-school children as well as school age children. The results of the pre-school census taken in 1966 are listed according to the year in which children are expected to enter school.

*Born between January and July, 1966

Redistricting of School Districts by State Direction

Mr. Geoffrey Graham, Superintendent of the Rutland Central Supervisory Union reports in part:

"Education is becoming big business. Citizens are aware of this with the increase in tax support sought both at the local and at the State and National levels, not only in Rutland Town but all across this country of ours.

"We in Rutland Town are currently involved in some rather major issues. First, we have resolved the matter of consolidating our four schools into one Rutland Town Elementary School, and are putting up a fine structure on the Post Road. We are looking forward anxiously to beginning the 1967-1968 school year with the opportunities—provided we can locate the needed staff—to offer physical education, home economics and shop, and expanded projects in art and music. We have kindergarten facilities should the Town vote that kindergarten be included in the educational program.

"A second major area of concern is that of redistricting. The 1966 Legislature created a 'Temporary Advisory Commission on Reorganization of School Districts Kindergarten through Grade 12.' The Commission so created has designated that the school directors of Rutland Town shall study with the school directors of Rutland City, Chittenden, Clarendon, Mendon, Sherburne, Shrewsbury, West Rutland, Wallingford, Mount Holly, Ira, and Tinmouth in what are known as Study Areas 23 and 27.

"The focal points in the 1966 Legislature's action may be said to lie in these ideas: the educational opportunity for each child shall be of **equal quality**. The means suggested are basically simple: place more children under a centralized management. Management means one representative school board per superintendent, not three or six or even ten or more, as now. It **does not** imply transporting pupils. Decisions on where children shall attend school **can** remain under local control **if** the quality and equality of program are stoutly provided by local effort.

"It is your superintendent's view that this is a proper and necessary direction in which to move, with both caution and foresight, but with neither reluctance nor careless haste.

"At this writing, there is some uncertainty as to how much leadership or direction or pressure may come from the 1967 Legislature. There has been no evidence that the 1966 Legislature's bill, promoting the reorganization of school districts, is to be picked up and developed with a further time table for action by the current session. It would be too bad to have all towns in the State required to go through a year of study, as the 1966 Legislature commanded, only to have the results dropped for lack of further encouragement and direction.

"You are all encouraged to follow the progress of current studies in this area, as reported in the press and over the radio, with the greatest of concern and with a maximum of personal involvement. The opportunity to participate in and to direct the course of these decisions is present now; it will be too late to have second guesses and second thoughts after any new administrative organization has been formed and secondary attendance areas determined.

"The good citizen will be an involved and busy citizen during the next 12-18 months."

* * * * *

The members of the School Board have and will continue to give study to the above matter. We are represented at all meetings and it is expected that before July 1, 1967 we will be able to make a full report and perhaps be prepared to have a recommendation for the voters' approval or rejection. We join with Mr. Graham in urging all voters to attend Study Area meetings and to follow the publicity given in the newspaper and on the radio as the study advances.

Budget for 1967-1968

The preparation of a budget to cover our expenses for operating our entirely new building and the expense of a larger staff necessary for increasing enrollment and expanded curriculum has required a lot of study.

Practically every item of expense has increased since last year and no doubt will continue to increase from year to year. Large items of expense which have increased materially are tuition for secondary pupils, transportation and teachers' salaries. The salaries for teachers next year will be based on a plan which should prove satisfactory to all concerned.

No one likes to pay increased taxes, but certainly no one should complain about it as we are obliged to provide quality education for all of our children so that they may be well prepared to compete with others in securing a good standard of living.

Our budget for the next school year (1967-1968) is the largest ever and is \$249,246.00. After deducting the expected State Aid plus a surplus anticipated this year and some other income, totaling \$38,855.00 leaves a balance to be raised by taxes, including cost of our outstanding Bond and all interest, is \$210,391.00.

The past method of listing property was at about 25% of value at ready sale. Our tax for next year on this basis would be \$5.78. However, State laws require every town to tax next year on the basis of 50% of fair value. This means that our rate of tax for 1967 for school purposes will be \$2.89 on revised Grand List.

This amount of tax is needed to properly operate schools for the year of 1967-1968. We trust the voters will authorize same.

We thank everyone who has in any way helped in the successful operation of our schools. We particularly point out the helpful services rendered by the P.T.A. and other Parents' Groups. We thank and appreciate the loyal, efficient services rendered by our teachers.

Respectfully submitted,

ALVA T. HOWE

VERMONT DEPARTMENT OF SOCIAL WELFARE

MONTPELIER, VERMONT

This thirty-first in the series of annual reports submitted to the people of Rutland Town presents tabulations for the calendar year 1966. In the Department of Social Welfare's program of assistance to the aged, blind or disabled 30% of the costs of hospital and physician services, as well as the excess over \$80.00 per month in Nursing Home Care, are assessed against the town of settlement of the recipients of such care. Participation charges incurred by your community during the past year for each of these types of care were as follows:

Nursing Home Care	\$1,720.14
Hospitalization Services	\$474.77
Physician Services	\$161.70

Under similar settlement provisions town participation in the program of Aid to Families with Dependent Children is at the rate of one-eighth the assistance grants while costs incurred for the care of Committed Children are borne equally by the local and state agencies. Charges assessed against your community for the former amounted to \$205.64 and for the latter \$938.20 for the year just closed.

During 1966 assistance was granted to 19 residents in your community under the Aid to the Aged, Blind or Disabled program. Direct money payments to these persons were financed entirely out of state-federal funds. Among the other programs financed from these same sources were Services for the Blind, Adoption Services, Medical Aid for the Aged, and Medical Assistance. While no town-by-town records are compiled for these categories, their benefits were available to all qualified residents.

Respectfully submitted,

JOHN J. WACKERMAN

Commissioner of Social Welfare

VERMONT STATE DEPARTMENT OF HEALTH

ANNUAL TOWN REPORT, 1966

This is a report to the residents of your town describing the health services which have been rendered during the state fiscal year July 1, 1965 through June 30, 1966. These services are carefully planned so that maximum benefit may be gained from each tax dollar. For instance, one clinic may serve many towns if the number of patients is small. On the other hand, when a service is needed in a town or city, we make every effort to provide it.

I invite you to discuss this report with your friends and health officer and I would welcome any impressions which you care to forward to me.

The following is a list of some of the health services to the residents of Rutland Town:

Attendance at well child conferences.....	16
Pediatric consultations for child health problems.....	—
Number of children given diagnostic services at hospitals. .	1
Number of children financially aided with hospitalization. .	—
Number of children aided at handicapped children's clinics for speech, hearing, orthopedic, plastic, neurological, or cardiac problems.....	4
Dental health education, number of children served in schools.....	—
People X-rayed for tuberculosis detection.....	1
People X-rayed for occupational diseases.....	9
Attendance at tumor clinics.....	—
Attendance at diabetes clinics.....	50
Diphtheria, Tetanus, Whooping-Cough Immunizations. . .	10
Polio Immunizations.....	232
Smallpox Immunizations.....	6
Measles Immunizations.....	—

Number of water samples tested (private and public supplies).....	42
Food and dairy products tested.....	—
Blood specimens (pre-marital, pre-natal, and other).....	30
Other laboratory specimens.....	19
Nutrition, dietary consultations to institutions, groups, and individuals.....	1
Sanitary inspections, consultations (food and lodging, camps).....	45
Water, sewage disposal, public buildings and other inspections.....	71
Hospital and nursing home inspections and consultations..	—
Public Health Nurse home visits.....	97
Number served by Public Health Nurse visits.....	33

Respectfully submitted,

R. B. AIKEN, M.D., M.P.H.

Commissioner of Health

1966 FIRE WARDEN'S REPORT

* * * * *

For building fires call - 773-2193**For forest and brush fires
and burning permits call**

}

George Livak 773-6798

* * * * *

1966 Fire Report

Number of permits issued.....	61
Number of forest fires.....	4
Acres.....	6.8

Law Pertaining to Brush Fires

"Fires kindled for the purpose of burning brush or for other lawful purpose shall be kindled only at such times and under such conditions as will enable the parties starting them to keep them entirely under control. Except as provided in this section, a person shall not kindle or authorize another to kindle a fire in the open air for the purpose of burning brush, weeds, grass or rubbish of any kind except where there is snow on the site, without first obtaining permission from the fire warden or deputy warden of the town, or the state forester, or his deputy, stating when and where such fire may be kindled. Whenever such permission is granted, such warden, or state forester or his deputy, within twelve hours, shall issue a written permit for record purposes stating when and where such fire may be kindled. Such permission shall not be required for the kindling of a fire in a location which is 200 feet or more from any woodland, timberland or field containing dry grass or other inflammable plant material contiguous to woodland."

Respectfully submitted,

GEORGE LIVAK
Fire Warden

REPORT OF
CHENEY HILL CEMETERY COMMISSIONERS

This year your commissioners put in a variety of shrubs in the front and along both sides of the driveway through the cemetery. The old broken markers were all replaced by new ones, which made for a much more attractive cemetery.

For the future we are planning to do more landscaping and beautification of the cemetery.

Development plans are now complete and lots are available. Any persons desiring further information should contact their commissioners.

Respectfully submitted,

SHERWIN WILLIAMS

BYRON J. HATHAWAY

GEORGE LIVAK

Cemetery Commissioners
